

Speaker changes - Wednesday

New Presenter Information

Name

Keynote 7 Professor Harm-Anton Klok

Title: Polymers at synthetic and living surfaces

C80 Alex Risos

Title: Future's sensing platforms using light and electric fields

C83 Lisa Strover

Title: Photodegradation mechanisms in crosslinkable polymer blends for organic solar cells

C85 Maryam Hejazi

Title: Deposition of conductive diamond on carbon fiber microelectrodes for neural stimulation

Speaker changes - Thursday

New Presenter Information

Name

Plenary 4 Associate Prof. Dr Brigitte Städler

Title: Micro- and Nanoreactors in Cell Mimicry

I.29 Elke Pahl

Title: Melting of Nano-Clusters in Strong Magnetic Fields

I.30 Michel Nieuwoudt

Title: Differentiation of human cortical hip bone composition according to age and gender using Raman microscopy

C95 Kristel Castillo

Title: Towards the next generation of polymeric materials

C107 & C109 swapping
