
G0: The Benefits that International Standards have Brought Seating Professionals

Lloyd Walker, BE(Hons), MTheolSt (Bioethics),
PhD(Bioeng), CPEng, GAICD, FIEAust

Barend ter Haar BSc,DPhil,

Lloyd has been actively involved in most aspects of the AT sector in Australia and internationally. He has established and clinically led new wheeled mobility services in Northern Queensland, established tertiary education programs, led Australia's largest AT research and development centre, and continues to contribute to AT standards development in Australia and at the ISO level. In recent years Lloyd joined the Australian Government and is currently the Director of Assistive Technology with the National Disability Insurance Agency (NDIA).

His presentations at the Symposium will be in his own professional capacity and will not necessarily represent the views of the NDIA or the Australian Government.
