and New Zealand  
College of Radiologists®

## SMART Workshop Summary

**Workshop Title:** Radiation Oncology Trainee SMART Workshop

**Date:** Friday 15<sup>th</sup> March 2019, 8:30am – 5pm.

**Venue:** Melbourne Cricket Ground

**Registration Fee:** \$85 ex GST (\$93.50)

**Delegate Profile:** Radiation Oncology Trainees

**Summary of Workshop:** The Radiation Oncology Trainee SMART Workshop is a full-day workshop directly designed to enhance trainee knowledge and skills in Statistical methods, Critical appraisal of the medical literature and Research methodology.

The workshop will have interactive small group sessions, guided by Radiation Oncologists and Biostatisticians, to discuss actively recruiting and published cancer clinical trials. The SMART Workshop is an opportunity for trainees to meet with local researchers within TROG, and international researchers.

There are two SMART workshops that run on alternate years: Study Design Concepts (workshop A) and Evidence Appraisal Skills (workshop B). Trainees are encouraged to attend both workshops. This year's SMART Workshop theme is 'Evidence Appraisal Skills'.

Trainees attending the SMART workshop for the first time are entitled to 10 SMART points.

Trainees attending their second SMART workshop may claim a further 5 SMART points.

Trainees attending the TROG ASM following the workshop are entitled to an additional 2 SMART Points (i.e. either 12 points or 7 points).

**Participant Materials Received:** Pre-Workshop reading materials will be provided prior to the day.

**Workshop Presenters:**

- Workshop Convenor: **Dr Trang Pham**, Liverpool Hospital.
- **Dr Nicholas Van As**, Medical Director of The Royal Marsden, Consultant Clinical Oncologist in the Urology Unit, and a Reader at the Institute of Cancer Research.
