Welcome
It is our great pleasure to invite you to the NZAOT conference for 2012, Māramatanga Hou fresh perspectives. Our theme is mindfully chosen in response to the occupational therapy profession desiring to consider the present and future needs of the clients we serve. In working across the continuum of service delivery from primary to tertiary care environments, a fresh perspective is required to overcome the traditional and non-traditional occupational problems we find ourselves facing within the everyday communities we serve.

Our national and international speakers are pushing the boundaries of knowledge and practice in occupational therapy. Hear about fresh ways of doing things, fresh tools to use, and fresh exposure to research. This conference is a catalyst for considering these many fresh perspectives.
